To: Blood-Stream Infection (CDC)
Subject: BSI

My hospital has been using the Maximus Plus positive pressure caps for several years. The technology of these caps allows easy disinfection with alcohol compared to other brands on the market. We have not had a BSI for over a year. I don't think the MaxPlus should be lumped into the statement about other positive pressure caps - the technology is different.

Thank You,
Cathy Sabau, RN, CCRN
